**Subject line:** VETSCAN® VS2 48-Pack Rotor Phase-Out Coming Soon

## Reminder: Phase-out of VETSCAN® VS2 48-count rotor packs

Dear Valued Customers and Distributors,

As a reminder, we will be phasing out VETSCAN VS2 48-count rotor packs for inventory simplification and greater flexibility for customers. To make this change seamless, the price per rotor when purchasing two 24-count packs will be the same as the price per rotor when purchasing one 48-count pack. **The 48-count rotor packs will no longer be available after September.**

The profiles affected by this change include:

- Comprehensive Diagnostic Profile 48-count pack
- Prep Profile II 48-count pack
- T4 / Chol Profile 48-count pack

We encourage you to begin purchasing 24-count rotor packs now. By keeping the price the same per rotor as the 48 packs, our goal is to ensure a smooth transition for your clinic. Additionally, switching to the 24-count packs will mean less SKUs for you to manage when ordering.

We appreciate your attention to this matter, and should you have any questions, please contact your local sales team or Customer Service at 888-963-8471.
