## 2024 OneMerck Veterinarian Rebate Program

January 1 - December 31, 2024

The 2024 OneMerck Veterinarian Rebate Program offers veterinarians the ability to earn rebates on purchases of Merck Animal Health products from multiple species groups under one program. See your Merck Animal Health representative and program terms and conditions for details and eligibility.

Earn the following rebates on cumulative annual purchases of equine vaccines and pharmaceuticals:

| Product Group B                     | Tier 1  | Tier 2   | Tier 3   |
|-------------------------------------|---------|----------|----------|
|                                     | \$5,000 | \$10,000 | \$20,000 |
| Equine Vaccines and Pharmaceuticals | 2%      | 6%       | 12%      |

6% - Example of a customer achieving Tier 2 in the equine product group.

12% - Example of a customer achieving Tier 3 in the equine product group.

REGU-MATE purchases will count only as a volume builder on the OneMerck Veterinarian Program for 2024. Rebate will not be paid on REGU-MATE purchases.

Global Pocket Reader Plus, GPR+ Protective Cover, Bio-Thermo Microchips and LifeChip Microchips are excluded from 2024 OneMerck Rebate Program.
