\*\*To qualify for a level-2 rebate, a minimum purchase of 10 cartons of SENTINEL® brand products is required.

\*A.Caninum.

†Prevents flea eggs from hatching.

### Terms and Conditions

Cannot be combined with other offers. All **BRAVECTO** brand product and **SENTINEL** brand product SKUs are eligible and qualify for the **BRAVECTO** and **SENTINEL** brand products rebates. Promotion dates are January 20, 2025, through February 28, 2025 ("Promotion Period").

To qualify for the "Promotional Rebate," a qualifying clinic must purchase a minimum of 20 cartons, mix and match of **BRAVECTO** and/or **SENTINEL** brand products, cumulatively during the promotional period. In order to achieve a level-2 rebate, a clinic must purchase a minimum of 10 (ten) cartons of **SENTINEL** brand products cumulatively during the promotional period. Qualifying purchase(s) must be ordered within the Promotion Period, and the complete order must be invoiced within 7 days of the end of the Promotion Period. Back-ordered products and returned products are not eligible. Clinic must pay full vet retail price on purchased **BRAVECTO** brand products and **SENTINEL** brand products to qualify for rebate. Cumulative orders will apply to a single ship-to location and the rebate will be paid to the ship-to address on file. Orders may not be split between multiple ship-to locations under different ownership. Offer valid only for veterinary clinics that have a valid Veterinary Patient Client Relationship, as defined by AVMA. Offer available to clinics in the 50 United States or the District of Columbia only. Allow 8–10 weeks for rebate processing (after end of the Promotion Period). Void where prohibited by law. MAH reserves the right to cancel or amend this program without notice at any time, for any reason, at its sole discretion.

### IMPORTANT SAFETY INFORMATION:

**BRAVECTO 1-MONTH (fluralaner) Chews:** Indicated for dogs 8 weeks of age and older. The most commonly reported adverse reactions include itching, diarrhea, vomiting, decreased appetite, elevated ALT, lethargy, and weight loss. **BRAVECTO 1-MONTH** is not effective against *A. americanum* in puppies less than 6 months of age. **BRAVECTO (fluralaner) Chews for Dogs:** The most commonly reported adverse reactions include vomiting, lethargy, diarrhea, anorexia, and pruritus. In some cases, adverse events have been reported following use in breeding females. **BRAVECTO (fluralaner topical solution) for Dogs:** The most commonly reported adverse reactions include vomiting, hair loss, diarrhea, lethargy, decreased appetite, and moist dermatitis/rash. **BRAVECTO (fluralaner topical solution) for Cats:** The most commonly reported adverse reactions include vomiting, itching, diarrhea, hair loss, decreased appetite, lethargy, and scabs/ulcerated lesions. **BRAVECTO Topical Solution for Cats** is not effective against American dog ticks beyond 8 weeks of dosing. **BRAVECTO PLUS (fluralaner and moxidectin topical solution) for Cats:** The most commonly reported adverse reactions include vomiting, hair loss, itching, diarrhea, lethargy, dry skin, elevated ALT, and hypersalivation. **BRAVECTO PLUS** has not been shown to be effective for 2 months in kittens less than 6 months of age. Use with caution in cats that are heartworm positive. The effectiveness of **BRAVECTO PLUS** to prevent heartworm disease after bathing or water immersion has not been evaluated. **BRAVECTO Chews and Topical Solution for Dogs** have not been shown to be effective for 12-weeks' duration in puppies or kittens less than 6 months of age. **BRAVECTO Chews and Topical Solution for Dogs** are not effective against the lone star tick beyond 8 weeks of dosing. **BRAVECTO Topical Solution for Dogs and Cats** and **BRAVECTO PLUS for Cats** are for topical use only. Avoid oral ingestion. The safety of **BRAVECTO Topical Solution for Cats** and **BRAVECTO PLUS** have not been established in breeding, pregnant, and lactating cats. **All BRAVECTO products** contain fluralaner, which is a member of the isoxazoline class. This class has been associated with neurologic adverse reactions including tremors, ataxia, and seizures. Seizures have been reported in dogs receiving isoxazoline class drugs, even in dogs without a history of seizures. Use with caution in dogs with a history of seizures or neurologic disorders. Neurologic adverse reactions have been reported in cats receiving isoxazoline class drugs, even in cats without a history of neurologic disorders. Use with caution in cats with a history of neurologic disorders. **SENTINEL® SPECTRUM® Chews (milbemycin oxime/lufenuron/praziquantel).** Dogs should be tested for heartworm prior to use. Mild hypersensitivity reactions have been noted in some dogs carrying a high number of circulating microfilariae. Treatment with fewer than 6 monthly doses after the last exposure to mosquitoes may not provide complete heartworm prevention. For complete product information, refer to the product insert. **SENTINEL® FLAVOR TABS® (milbemycin oxime/lufenuron).** Dogs should be tested for heartworm prior to use. In a small percentage of treated dogs, digestive, neurologic, and skin side effects may occur. For complete product information, refer to the product insert.
