ORDER THRU Midwest Veterinary Supply
- offer runs January 1st to March 31st

- Drip chambers with 15 micron particle filter - Prevents foreign bodies or crystallized fluids from passing into the fluid line
- Built-in extension tubing - Allows patients to be easily disconnected from fluids for exercise purposes. Choose either 78" or 106"
- Self priming end cap - Allows the set to be primed, expelling all air-bubbles. No fluid loss, waste or mess - keeps the treatment area and patient clean and dry.
