\*Terms and Conditions: Orders must be placed and invoiced between November 1, 2024, and December 31, 2024 ("Promotional Period"), direct through Zoetis or from an authorized distributor. Back orders that do not ship during the Promotional Period will not count toward the promotion tier threshold or rebate payout. To qualify, accounts must purchase the minimum quantity of doses per vaccine group, as outlined above, in a minimum of 4 vaccine groups, to receive the corresponding rebate. Rebate amounts will be calculated using the total amount spent on all vaccines in each group, during the Promotional Period. Vaccine types associated within each group can be mixed and matched for the respective group but cannot be mixed with other groups to achieve the minimum quantity. The rebate is in addition to any existing discounts/rebates that accounts may receive per their current contract terms. Zoetis reserves the right to change or discontinue this promotion at any time and for any reason.

<sup>†</sup>The ISG ensures Zoetis will cover reasonable diagnostic and treatment costs up to \$5,000 if a pet is vaccinated with a covered Zoetis antigen and contracts the corresponding disease, subject to terms and conditions.
